

# eColite

## Plastic LED T8 Tube

The Magnatech eColite series of LED T8 fluorescent tube replacements utilize the latest generation of high output LED chips to offer superior light output.

The eColite range offers an affordable alternative to standard T8 fluorescent tubes.

The standard eColite offers 100Lm/W and the Prime version exceeds 130Lm/W.

By using an all-plastic casing the eColite is lightweight, durable and very safe.

For safety the eColite has a single-end power input. Two-end power is available as an option.

Fitting is complete by simply inserting the eColite tube and replacing the starter with the fused link supplied. For electronic ballast the fitting will need to be re-wired. Full fitting instructions are supplied.

### Features

- ✓ All plastic case
- ✓ Internal driver
- ✓ Up to 140Lm/W

### Replaces

- ✓ T8 fluorescent tubes
- ✓ 600mm to 1500mm
- ✓ 18W to 54W tubes

### Applications

- ✓ Hotels
- ✓ Shops
- ✓ Offices
