

erGolite-Ecoline

Large LED Panels

The Magnatech LED erGolite-Ecoline range of slim panel lights are designed to be fitted into a standard 600mm T-bar suspended ceiling system.

Using side-lit technology, the panel offers a low profile of only 10mm.

Designed as an economy version of our standard erGolite panel range for less demanding environments.

The panel lights are ideally suited as an economic alternative to fluorescent tube fittings by using LED technology to provide low power consumption (approx. 50% of standard fluorescent fitting).

Fitting options include cable suspension and surface mounting.

Features

- ✓ Low profile
- ✓ Recessed fitting
- ✓ External driver

Replaces

- ✓ 2ft/600mm

Applications

- ✓ Hotels
- ✓ Shops
- ✓ Offices
