

Ecoline T8E nano

Plastic LED T8 Tube

The Magnatech T8E nano series of LED T8 tubes provide the lowest cost option to replace conventional fluorescent tubes.

The eColite T8E nano is case is made completely from plastic making it very robust and also very safe to use with no risk of electric shock.

The eColite T8E nano delivers an impressive 95Lm/W and with a CRI of >70 gives good colour definition compared to fluorescent tubes.

Available in single or double ended versions.
